EDUCATION

B.Sc. (Hons.) Computer Science — Shaheed Sukhdev College of Business Studies, University of Delhi *Pursuing*

- CGPA: 8.00 (Till 1st Year)

Senior Secondary & Secondary Education — Sri Prakash Vidyaniketan, Visakhapatnam

- AISSCE (Science): 91.4% [457/500], 2025 | AISSE: 88.4% [442/500], 2023

TECHNICAL SKILLS

Languages: Python, C++, Dart
Frameworks & Libraries: Flutter
Tools & Platforms: SQLite, Ollama, Canva

PROJECTS

SOS Emergency Alert App (Flutter)

- Built a one-tap emergency alert app using Flutter and Geolocation API that captures a user's live GPS coordinates and dispatches them via SMS to saved emergency contacts and a helpline number
- Designed a local contact-management system (SharedPreferences) allowing users to configure up to 3 emergency contacts without requiring a backend or account
- Focused on low-latency, offline-first design so the app functions without an internet connection, relying solely on device GPS and native SMS

Gmail AI Draft Assistant (Python)

- Built an AI-powered Gmail automation tool that reads unread emails via the Gmail API, classifies whether each requires a reply, and generates a context-aware draft response using a locally-hosted Llama 3.2:3B model via Ollama
- Implemented Google OAuth 2.0 authentication and a SQLite-backed deduplication system to track processed emails and prevent redundant AI calls across runs
- Designed a human-in-the-loop workflow requiring explicit user confirmation before saving any AI-generated reply as a Gmail draft, avoiding unreviewed automated sends

Digital Music Player (C++)

- Implemented a console-based music player using a circular doubly linked list to enable continuous next/previous track navigation and playlist looping without boundary checks
- Engineered core playlist operations (insert, delete, shuffle, repeat) with O(1) node traversal for adjacent tracks
- Applied object-oriented design principles to separate playback logic, playlist data structure, and UI, demonstrating strong DSA fundamentals

EXPERIENCE

Havish M Consulting — Live Project Associate *12 weeks, Nov – Jan 2025*

- Developed an end-to-end ML solution for employee attrition analysis, including preprocessing, model training (Logistic Regression, Decision Tree, Random Forest), evaluation, and extraction of key retention drivers

InAmigos Foundation — Graphic Designer *2 weeks, April 2025*

- Designed and promoted Project Bachpanshala campaign creatives using Canva to support donations, volunteer recruitment, and CSR partnerships

Uttejana Foundation — Live Project Associate *8 weeks, Feb – March 2025*

- Facilitated grassroots field research and translated stakeholder feedback into strategic reports to strengthen community initiatives in education and menstrual health

POSITIONS OF RESPONSIBILITY

Core Committee Member — GirlUp Ruhi, SSCBS *Sept 2025 – Present*

- Led women's safety and wellbeing initiatives, including a CSR-funded campus sanitary-vending installation, a 100+ participant mental health webinar, and NGO outreach promoting gender equality

Organising Committee Member — ACM, SSCBS *Sept 2025 – July 2026*

- Contributed to graphics/marketing for SAH Hackathon, coordinated speaker logistics for ACM SSCBS-DDUC Industry Day

Organising Committee Member — EcoClub, SSCBS *Sept 2025 – May 2026*

- Coordinated large-scale waste segregation awareness activities, educating 100+ participants through interactive games

ACHIEVEMENTS

- Certificate of Merit – IIT AI/ML Hackathon, Convolve 4.0 (2026); Certificate of Appreciation – Graphic Designing Internship, InAmigos Foundation (2025)
- 100/100 in Informatics Practices, AISSCE (2025); School honours (2022): SOF Cyber Olympiad Rank 1, Science Olympiad Rank 3, English Olympiad Rank 5, NCC 'A' Certificate; International Winner at BRICSMATH.com (2019)
